

Aetna® virtual dental care through Dental.com 365 days a year

An integrated experience designed to provide dental care with specific product recommendations

Advanced technology puts your oral health in focus — from anywhere

Now you can use the power of artificial intelligence (AI) to stay on top of your dental health and get the care you need.

Through our collaboration with Dental.com, you can use SmartScan™ technology to scan and submit photos of your mouth and teeth. This special technology can find issues like cavities, gum disease, plaque, a cracked tooth and more.

You'll then get a personalized wellness report and exclusive access to oral health product recommendations to specifically address the issues found. Members may receive a 20% discount* on most recommended products, such as Listerine mouthwash, specialty toothpastes and much more.

Other virtual services to keep you healthy

Plus, you'll have access to other virtual care services. You can easily connect with a licensed dentist who can prescribe medication, treat toothaches, infections and other dental emergencies. Or provide a second opinion, if needed.

To find out more about these special services, scan the code or visit Dental.com/Aetna.

*FOR 20% DISCOUNT OFFER: Most recommended products have access to the **AETNA20** discount via online purchase. Offer available online only.
